

Notes from Eco team meeting dates November 18, 2016

- Students were making thank you cards for “Field of Dreams” to thank those who helped with the elementary garden
- The team met as a group and discussed next meetings goals
- Mr. Robert Ripple will lead the next meeting as Dipa Brahmhatt will be out of town
- Phrase chosen for our eco team efforts: **Behold Diversity** – Idea entered by Lily Roberson. Lily will be asked if we can add an extra “e” in there so it reads Bee-hold Diversity. Pending approval per Miss Lily Roberson
- Disseminating info group created a large logo for the building so visitors and families can see we are an Eco-school. An additional copy was requested for the elementary building, and so the team said they would create an additional one for the entry door so both schools have this logo proudly displayed.
- Curriculum team will be in charge of organizing the project for the next meeting to be held on December 16th.
 - This project will involve all children, and their adult team members to:
 - create collaged pages for the different areas of the elementary garden.
 - Curriculum team will laminate the children’s collaged pages for each garden area (butterfly, pizza, prairie, peace and aqua garden) will be laminated and placed into the nature journal, along with some journaling pages (curriculum team’s idea for documenting & learning about biodiversity)
 - Nature Journal will be handed over to the children for them to journal, record, and draw nature.
